

SCIENCE 7 INTERACTIVE LEARNING LOG (ILL)

PURPOSE

In an effort to maximize learning, each student will need to keep an individual, personal learning log or interactive notebook, which will be a way for you to measure your day-by-day progress. Hopefully, by completing this each class period, you will be able to:

1. process and retain science concepts more easily
2. use it to review for quizzes and tests
3. keep track of the assignments, homework and class progress on a daily basis
4. have a study tool for the final exam at the end of the year
5. personalize your learning experience in science by having a means to reflect thoughtfully, creatively, and individually

REQUIREMENTS

- Spiral notebook* (at least 8.5"x11") with at least 150 pages
- Glue sticks
- Colored pencils for artwork (NO MARKERS OR FELT-TIP PENS)

*A second spiral notebook may be needed for the second semester if first semester notebook is in poor condition or full.

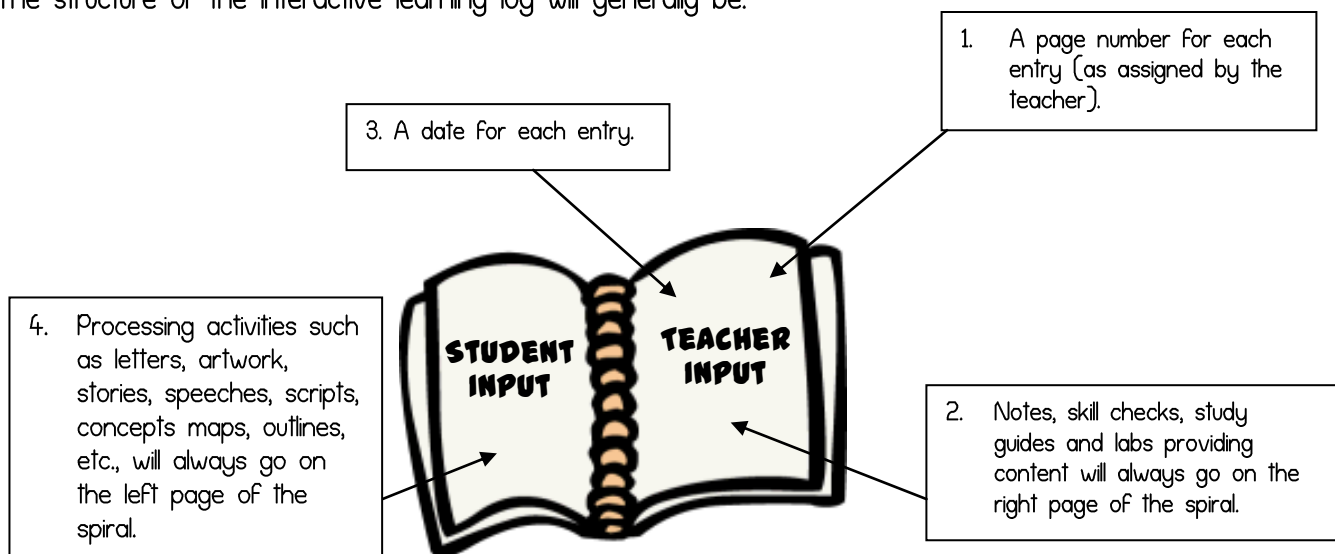

STRUCTURE

The structure of the interactive learning log will generally be:

1. A date for each entry
2. A page number for each entry (as assigned by the teacher)
3. Notes, skill checks, study guides and labs providing content will always go on the right page of the spiral notebook.
4. Processing activities such as letters, artwork, stories, speeches, scripts, concepts maps, outlines, etc., will always go on the left page of the spiral notebook. Always use color, it helps the brain learn and organize information.

SET UP

The structure of the interactive learning log will generally be:

IT IS YOUR RESPONSIBILITY TO GET THE MATERIAL AFTER AN ABSENCE AND ADD IT TO YOUR ILL!
